### DETAILED ACTION

**Please Note:** In an effort to enhance communication with our customers and reduce processing time, Group 1615 is running a fax response pilot for Restriction Pilot for Written Restriction Requirements. A dedicated fax machine is in place to receive your responses. The Fax number is (703)- 746-5215. A Fax cover sheet is attached to this office action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact, Thurman Page, Supervisory Patent Examiner, at (703)-308-2927. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to written restrictions.

### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species of the claimed invention:

1. A composition comprising a cyclodextrin and a surfactant (Claims 1-44).
2. A process for manufacturing a composition suitable for capturing unwanted molecules (claims 45-47).
3. A method of removing unwanted molecules and a method of cleaning (Claims 49-52).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Further, if applicants choose to elect the Composition claims, they are further required to elect a single species of buffering agent from the various buffering agents recited in claim 39.

Art Unit: 1615

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1615

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lakshmi S Channavajjala whose telephone number is 703-308-2438. The examiner can normally be reached on 7.30 AM -4.00 PM.
